Due to illusion (Maya), I had been suffering from the chronic disease of birth and death in 84 lakh species for infinite ages. I took many medicines of various rituals of Brahma, Vishnu, Mahadev, Shakti etc. deities, but my disease of birth and death in 84 lakh species did not reduce even a bit. This disease of birth and death of mine was cured by the Satguru by making the medicine of the science of asceticism (Vairagya). As soon as I drank that medicine, it ran away from the root forever and I became free from deeds (karmas), mind, and five souls (five elements attached) and merged into the almighty lord (Sataswarup Brahma).

I started seeing twelve lotuses in my body. Lightning started flashing in all four directions in my body. Lamps were lit in every hair pore of my body. Such a thing of nature manifested in my body.

As I drank this medicine, my mind became crazy in the land of ultimate happiness with joy. The three worlds (lok) and fourteen bhavans (floors in heaven and hell) began to appear to me as subtle as water in a cupped hand.

Only a Satguru like you can make this medicine. I know this because I am drinking it. Satguru Sukhramji Maharaj says that no one else knows how to make this medicine. The wise and meditative people of the world say that they know how to make this medicine verbally, but no one knows the actual process making it.
